Who must be in Compliance?

The WPS covers pesticides that are used in the production of agricultural plants on **farms, forests, nurseries, and greenhouses**. Agricultural pesticide users and employers of agricultural workers or pesticide handlers need to understand and follow the requirements of the WPS. The WPS is a federal law; however, most states, as is the case in Arizona, have adopted the federal standard along with some additional specific state requirements. These additional requirements may vary from state to state.

Continuing Education Units (CEU) Credits are available to attendees with pesticide applicator (PUP/PUC) or Pest Control Advisor (PCA) license:

7 hours all day
